

# WHAT WE OFFER

Dear Reader,

Whether you are one of many satisfied clients of MG Safety Services, or if you have yet to avail of our services, let me begin by saying happy new year (and I hope you are enjoying the snow!).

MG Safety Services has grown significantly since its start up in April 2011. We have went from 10 clients to over 100 in less than two years.

As a result of this growth, we are developing new ways to keep in contact with our clients.

This is the first issue of our new quarterly newsletter. As it is our first issue, we will use it as an introduction to our full range of services.

Moving forward however, we will use the newsletters to keep our clients up to date with the ever-evolving landscape of Health and Safety - from relevant changes in legislation to reminders about re-fresher training.

Until next time, we at MG Safety Services would like to wish you the very best in your business during 2013.

## MG SAFETY SERVICES

MG Safety Services offers professional, affordable Health & Safety, Quality, and Environmental consultancy. We will assist your company in its efforts to meet both legal and client requirements.

At MG Safety Services our consultants are NEBOSH (National Examination Board in Occupational Safety and Health) qualified. We have consultants who are also qualified in Environmental safety and our senior consultant is a member of IOSH (Institute of Occupational Safety & Health).

MG Safety Services has over 7 years experience in the construction

industry. We also have extensive and expanding experience in work place Health & Safety: in offices, factories & retail premises.

We have helped many companies achieve certification to ISO 9001:2000, ISO 14001:2004, Safe-T-Cert.

If you are in need of some of our services - whether you are a five man bricklaying squad, a large civil engineering contractor or a private business owner - we will be glad to assist you in creating, understanding and implementing your requirements.
