

Dear Reader,

Firstly, we hope you have had a productive and prosperous beginning to 2013.

On this, our second newsletter, we briefly cover the new services we have to offer; our latest commitments to community health and activity, and we highlight some relevant information regarding Invest NI grants and HSENI activity.

To the far right you will see a list of the different types of insurance coverage we now offer in conjunction with S. Hill & Co Investment advisors LLP.

Above is the 'artists impression' of our latest sponsorship: Drumgrath GAC U14's. This is our third sports kit sponsorship, alongside Scarva FC's reserve team and Rathfriland FC's U7's. Here at MG Safety Services we have a desire - and we believe we have responsibility - to help support healthy activity among all age groups and communities in Northern Ireland.

Further, MG Safety Service's founder, Mark Gracey, is currently completing his

application to become one of the first certified business advisors in Northern Ireland through the UK Institute of Consulting, thereby ensuring we continue to offer consultation of the highest standard.

We would also like to bring to your attention a few relevant improvement options open to your business.

There are currently Invest NI grants available, that can contribute toward consultancy (and are paid on achievement) of Certification ISO 9001: 2008 (Quality); ISO 14001: 2004 (Environmental) and OHSAS 18001 (Health and Safety).

Another notable service that HSENI are now offering is the option to report all work related accidents to HSENI, 'no matter who the relevant enforcing authority is for the business.'

Finally, we would like to extend our congratulations to HSENI on the success of its farm safety campaign, 'SAFE.' This is prime example of a previously under-au-

dited working environment being brought into line with correct and reasonably practicable procedure.

BEFORE YOU START ANY JOB

**STOP AND THINK**

**SAFE**
